DETAILED ACTION

1. This second office action is responsive to the communication on September 9, 2005; claims 17-32 are pending; claims 1-16 have been canceled.
2. The terminal disclaimer submitted on September 26, 2005 obviates the double patenting rejection set forth in the previous office action. The rejection is withdrawn.
3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: there is no antecedent basis for the term "first orifice" presented in claim 17, 23.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 17-32 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the step of providing a wafer having a front side and a rear side is essential before performing the process having step (a) to (k) in claim 17; claim 23 and claim 32.
6. Claims 17-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The language "said cavities having inclined side walls and a tapered cross section the width of which increases with the distance from the rear side of the wafer" appears to be awkward and confused with respect to the antecedent basis for "the with", i.e.

Art Unit: 1752

width of the section or the width of the cavities?. See similar language in claim 23. The use of the language “predetermined” in claim 32 is indefinite in the absence of providing the mete and bound thereof. See line 7. The term predetermined was held to be indefinite, *Jos. E. Seagram & Sons, Inc. v. Marzall, Comr. Pats.*, 84 USPQ 180 (CADC 1950). The “the steps of etching ...” in claim 32, (a) is unclear with respect to the antecedent basis thereof.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
